UX & PRODUCT DESIGN PROFILE

UX/product designer and HCI-focused Information Science student with experience in user interviews, usability testing, survey analysis, Figma prototyping, research synthesis, and front-end development. Skilled at translating user needs into wireframes, interaction flows, responsive interfaces, and data-informed design recommendations for web and mobile products.

SKILLS

Design: Figma, wireframing, low/mid/high-fidelity prototyping, interaction design, user flows, responsive design, app preview assets

Research: User interviews, usability testing, survey analysis, affinity diagramming, persona development, AEIOU framework, research synthesis

Technical: JavaScript, HTML/CSS, React, Python, pandas, SQL, Supabase, Vercel, Tableau, Power BI, Excel, Git/GitHub

Collaboration: Agile/Scrum, design critique, stakeholder interviews, workflow mapping, research presentations, cross-functional communication

EDUCATION

University of Maryland, College Park | B.S., Information Science | Expected May 2027

Specializations: Data Science/Analytics and Human-Computer Interaction | **Minor:** General Business

GPA: 3.5 | Dean's List 2022 | **Relevant Coursework:** Human-Computer Interaction, Database Design, Data Visualization, Statistics, Object-Oriented Programming

UX & DESIGN PROJECTS

Pāpaia - Privacy-First Cycle Tracking App | **UX Researcher & Designer** | 6-Person Team | 2025

- Collaborated on wireframe, mid-fidelity, and high-fidelity Figma prototypes for a privacy-first cycle tracking app with no-login onboarding, simple navigation, and customizable symptom logging.
- Interviewed 2 of 6 participants and helped synthesize 37 survey responses; created a survey scoring sheet to turn qualitative feedback into research insights.
- Translated findings around privacy, simplicity, and personalization into clearer privacy settings, fewer navigation steps, and a calmer high-fidelity walkthrough.

Exhibit - Location-Based Fashion Social App | **Co-Founder & Product Designer** | Released on App Store | 2025 - Present

- Created low-fidelity app layouts and App Store preview assets for a fashion-focused social app centered on daily outfit sharing and location-based discovery.
- Interviewed beta users and close contacts to identify usability issues, debug release blockers, and gather feedback for the official mobile app launch.
- Partnered with developers to shape product flows for onboarding, feed discovery, posting, and profile interactions across the beta and release process.

Pantry2Plate - Recipe Discovery Web App | **UI Designer & Front-End Developer** | Nov 2025

- Designed and built a responsive recipe-discovery web app that helps users find meal ideas from available ingredients while reducing food waste and decision fatigue.
- Implemented ingredient search, time and diet filters, saved recipes, sorting, and CSV export using HTML/CSS, JavaScript, Vercel serverless routes, Supabase, and TheMealDB API.
- Defined user problems and stakeholders for students, families, and budget-conscious home cooks, then built search and saved-recipe flows around those constraints.

EXPERIENCE

AARP - I.T. Support Specialist | Washington, D.C. | May 2024 - Aug 2024

- Conducted stakeholder interviews with 10+ platform managers to identify workflow pain points and improve understanding of internal system usability.
- Collaborated in daily Agile scrum cycles with cross-functional teams, contributing to system mapping, workflow visualization, and technical documentation.
- Built Excel dashboard using pivot tables to communicate program metrics to 20+ stakeholders and support data-informed decisions.

Amazon - Operational Strategy & People Analytics Extern | Remote | Apr 2025 - Jun 2025

- Analyzed 15+ operational case studies and visualized findings with Tableau to support data-driven workforce decisions.
- Performed scenario analysis identifying 10-15% labor cost optimization opportunities through improved resource allocation.

LEADERSHIP

Phi Beta Sigma Fraternity, Inc. | **Vice President, Social & Social Action Chair** | Sep 2024 - Present

- Coordinate campus and community initiatives, balancing stakeholder communication, event planning, and service-based programming.
- Lead outreach and collaboration with student organizations to support inclusive campus events and community engagement.
